lead to dependence. Keep clonazepam tablets in a safe place to prevent misuse and abuse. Selling or giving away clonazepam tablets may harm others, and it is against the law. Tell your doctor if you have ever abused or been dependent on alcohol, prescription medicines or street drugs.

What are clonazepam tablets?
Clonazepam tablets are a prescription medicine used to treat the following conditions:
• certain types of seizure disorders (epilepsy) in adults and children
• panic disorder with or without panic attacks

The most common side effects of clonazepam tablets include:
• Drowsiness
• Problems with walking and coordination
• Migraine
• Fatigue
• Problems with memory

Ask your healthcare provider if you are not sure if you have any of the problems listed above.

What should I tell my healthcare provider before taking clonazepam tablets?
Before you take clonazepam tablets, tell your healthcare provider if you:
• have liver or kidney problems
• have high blood pressure (hypertension)
• have had depression, mood problems, or suicidal thoughts or behavior
• have any medical conditions

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines and herbal supplements. Taking clonazepam tablets with certain other medicines can cause side effects or you may have an increased risk of serious side effects or death. Do not start or stop other medicines without talking to your healthcare provider.

Know the medicines you take. Keep a list of them and show it to your healthcare provider and pharmacist when you get a new medicine.

How should I take clonazepam tablets?
• Take clonazepam tablets exactly as your healthcare provider tells you.
• Clonazepam is available as a tablet.
• Do not stop taking clonazepam tablets suddenly.叫做你的医疗保健提供者 if you miss a dose, take it as soon as you remember. If it is almost time for your next dose, do not take the missed dose. Wait for the next dose. Do not take two doses at the same time.
• Clonazepam tablets should be taken with water and swallowed whole.

If you take too much clonazepam tablets, call your healthcare provider or local Poison Control Center right away.

What should I avoid while taking clonazepam tablets?
• Clonazepam tablets can slow your thinking and motor skills. Do not drive, operate heavy machinery, or do other dangerous activities until you know how clonazepam tablets affect you.
• Do not drink alcohol or take other drugs that may make you sleepy or dizzy while taking clonazepam tablets until you talk to your healthcare provider.

This Medication Guide summarizes the most important information about clonazepam tablets. If you would like more information, talk with your healthcare provider. You can ask your pharmacist or healthcare provider for information about clonazepam tablets that is written for health professionals.
